Professional Summary

Artificial Intelligence Engineering graduate specializing in data analysis, machine learning, and data visualization. Proficient in Python, Power BI, Tableau, and Excel, with a track record of developing analytical models and dynamic dashboards. Proven ability to drive efficiency and business insights through projects in sales and sports analytics

Experience

Artificial Intelligence Intern, Spring Board 2024
(AI-Enabled Traffic Management System)

- Developed an AI system for number plate recognition and traffic classification.
- Implemented vehicle detection and data interpolation to enhance traffic tracking accuracy.
- Designed visualization tools for real-time traffic insights and monitoring.

Projects

House Price Prediction Using Machine Learning 2025

- Built a regression model to predict house prices using features like location, area, and bedrooms.
- Applied One-Hot-Encoding, handled missing values and outliers, and used Column Transformer for preprocessing.
- Evaluated models (Ridge, Lasso, Random Forest) using R^2 , MAE and RMSE .

IPL 2024 Performance Insights Dashboard 2025

- Built interactive Power BI dashboards with real-time match stats, team performance & dynamic filters.
- Designed Inning and Points Table views with drill-through analytics, team themes, and player imagery for better UX.

Detection of TB and Pneumonia from X-Ray image using Deep Learning 2024

- Developed a CNN-based model to detect tuberculosis and pneumonia from chest X-ray images.
- Built a Flask web application for real-time disease identification, reducing manual inspection by 70%.
- Facilitated early detection of diseases like tuberculosis and pneumonia.

Technical Skills

Programming Languages: Python

Visualisation Tools: Power BI, Tableau, Excel

Data Bases: MySQL

Developer Tools: Jupyter Notebook, Google Collab, Git, GitHub, Visual Studio Code

Libraries: Pandas, NumPy, Matplotlib, Seaborn

Certificates

- **Master In Data Science & Analytics With Artificial Intelligence**

Education

Master of Science in Data Science and Artificial Intelligence Jan 2025 -Present

IT Vedant Education Pvt. Ltd., Pune

Core Courses: Machine Learning, Data Visualization, Statistical Modeling, Python

G.H. Rasoni Institute of Engineering and Business Management Jalgaon, India

B. Tech Computer Science& Engineering (Artificial Intelligence); CGPA: 8.09 2021 – 2025

Arts Science and Commerce College Chopda, India

Senior Secondary; Percentage: 84.67% 2021

Pratap Vidya Mandir Chopda, India

Secondary; Percentage: 84.60% 2019
